

e.term hd

Product Description

Basic Use: e.term hd is made from flexible, high strength PVC. It provides an excellent solution for top terminations with below-grade waterproofing membranes and drainage boards systems. e.term hd protects the waterproofing top edge and will secure drain panels and protection boards.

Composition: High strength PVC.

Benefits

- Unique design prevents penetration of the membrane system
- Performs as a termination bar and flashing
- Flashing prevents debris from getting behind the prefabricated drainage composite

Limitations

- A sealant bead is required on the top edge of the termination bar

Technical Data

Properties: See physical properties table

Coverages: 8 lineal feet

Specification Writer: Contact EPRO before writing specifications on this product. E.Series system assemblies should be reviewed in order to meet project specific site conditions.

Installation

Surface Preparation: All surfaces shall be prepared in accordance to manufacturer's specifications. Substrate shall be smooth and uniform to allow for consistent fastening and then e.term hd termination bar is achieved.

Application: Install e.term hd at the top edge of material or through waterproofing membrane using 1-1/4" galvanized shot pins and counter flash with drain board. Attach every 1 ft. on center with appropriate mechanical or power actuated fasteners.

Availability and Packaging

Contact EPRO sales representative for local distributors or authorized applicators (www.eproinc.com).

Bar: 8 feet in length and available individually or in bundles of 50

Warranty
